HAZE

PRE SPRING 23

"Just around sunrise in the early morning hours, where winter turns into spring.
An intoxication of light but in a blurry and hazy way.

The PS23 collection is based on this feeling. The colors balance between dark and light, dull and bright. The fabrics are heavy, yet breezy and suitable for the early spring. The collection contains a new range of unisex styles based on sporty silhouettes and fabrics, whereas long dresses in different fits and structures gives the collection a feminine touch."
