EX SOLE

EX SOLE is a new sole that pursues comfort for long hours wearing. Collaboratively developed with Italy's EXTRALIGHT, which also provides lightweight soles to the luxury fashion brands. It is about 25% lighter than the AT sole, and the uniquely developed EVA footbed improves cushioning and fitting, being the most comfortable sole in SHAKA history. It has excellent anti-slip with high grip, and can be worn it safely rainy days, perfect for urban lifestyle.

type :

ALL-TERRAIN SOLE

AT stands for ALL TERRAIN, it uses EVA injection on the sole for lightweight and great cushioning. The evolved version of shark tooth grip which is also the icon of SHAKA, has expanded pattern in the center of the bottom surface. Enabling the grip to approach in all directions in any environment and comfortable wearing for long hours.

type :

SAFARI SOLE

SAFARI SOLE features block pattern that inspired by classic military "command boots" sole. SF sole, stands for SPECIAL FORCE, which aims for high quality that clears the "Special Forces" standards, and is lightweight and highly cushioned with the EVA injection method, combining together with rubber outsole for great grip.

type :

BAREFEET SOLE

BF sole, named from BAREFEET gives the feeling of a bare feet experience as if you were grasping the ground with bare feet. Developed to be as thin as possible by inserting the midsole into the rubber cup-shaped outsole to feel like landing directly. It is one of the thinnest soles among SHAKA but also has a high-repulsion EVA midsole with high cushioning and a structure that provides long time comfort even when worn for a whole day.

type :

EVA INJECTION SF SOLE

The integrally molded EVA injection method reproduces the voluminous block pattern SF sole. The cushioning is developed with carefully calculated balance, so the footbed is not too soft but also not too hard that creates the perfect comfort for all feet. EVA has both lightness and comfort-ness to be worn relaxing.

type :

ORIGINAL SOLE

SHAKA's iconic original outsole that symbolizes SHAKA which has not changed since the beginning till this day. Details like shark tooth grip which looks like teeth of a shark features an excellent grip for all types of surfaces. The curved arch fits perfectly to support walking and the toe bumper also has a distinctive feature, and it is an icon that can be recognized as SHAKA at a glance.

type :

EVA INJECTION ORIGINAL SOLE

EVA INJECTION ORIGINAL SOLE made by the integrally molded EVA injection method. The icon of SHAKA, ORIGINAL SOLE with unique shark tooth grip created in EVA version. The cushioning is developed with a lot of tests, the footbed is not too soft but also not too hard that creates the perfect balance that provides long hours comfort when wearing.

type : **HIKE PLATFORM SOLE**

HIKE PLATFORM SOLE featuring an edgy shark tooth grip and platform sole. The separate toe and heel design provides long hours comfort when wearing even in platforms design. The rolling form design on the toe supports smooth walking. Details inspired by running shoes to provide perfect comfort.

type : **ORIGINAL LITTLE SOLE**

This sole specially made for the LITTLE, has shark tooth grip applied all over outsole with high grip power. The oblique toe fits naturally on foot and cup-shaped midsole better fitting with stableness while wearing.

type : **WIDE ORIGINAL SOLE**

WIDE ORIGINAL SOLE is a slightly wider version of the ORIGINAL SOLE. This sole is updated in oblique toe shape for a relaxing wearing while keeping the original details as it is, as well as maintaining high grip power of the shark tooth grip and arch support, with stability added when wearing.

type : **CHUNKY SOLE**

CHUNKY SOLE is the thickest and chunkiest sole among SHAKA. The thick EVA midsole has high cushioning and the curved arch provides long hours comfort while wearing. The rubber outsole has high grip for good comfort, fashionable yet easy-to-wear.
